1. Exports

Export of animals to the Arab Gulf States, especially Saudi Arabia, represents the largest share of the Somaliland export earnings. The three types of livestock that Somaliland exports are sheep/goat, camel, and cattle. There are also other items that accompanies the livestock export. Skins, hides and fish are the main exports that Somaliland traders share with the entire world.

1.1. Livestock Exports: Jan-December 2022

The table (1) below illustrates the category of livestock market share per type of exports. The price of livestock per type is shown in the table and data was collected by the team from the Macroeconomic Department, and targeted livestock markets across the regions of Somaliland. The quantity of livestock exported during Jan-December 2022 is multiplied by the current local livestock price per head, which gives the total value of exports. Figure 1 clearly specifies that sheep/goat has the largest share of livestock exports of 92%, then with Cattle and Camel at 6%, 2% of quantity exported respectively.

**1.2. Commodities Exports: Jan-December 2022**

The exports from Somaliland other than livestock are not as that as significant. Few items or commodities are exported through the main port of Berbera and Zaila border. The Table 2 below shows the list of items that Somaliland exports to other countries. Skins and hides, gums, fish, powder soap and watermelon hold prominent positions in terms of quantities exported. The values in the table are collected by a particular team from Macroeconomic department, and the price values sometimes vary significantly from current local market prices.

1.3. Comparison of Livestock Exports (Sheep/Goat) Jan-December 2021/2022

As the comparative figures between 2021 and 2022 in Table 4 below shows, the month of May in 2022 has the highest percentage increase in exports compared to the same month in the previous year. In aggregate, livestock (Sheep/Goats) exports in the year of 2022 were 10% higher than exports of the same period in 2021.

Figure 2 below shows the comparison between the two annual statistical reports of Jan-Dec 2021 and 2022. The month of May has the highest difference in 2021/2022 which total sheep/goat exports doubling. The figure also shows a clear seasonal pattern in the exports of livestock.

Figure 2: Comparison of Livestock Exportation (Sheep/Goat) Jan-Dec 2021/2022

Table 5 and Figure 3 below show the comparison of camel's exports during the fiscal years of 2021/2022. Camel exports in August 2022 has the highest year-on-year (YoY) increase of 58,540%, while July has the largest YoY decrease. This is different from the rest of the livestock exports, which follow a more seasonal pattern. In aggregate, Jan-Dec 2022 camel exports increased 67% compared to the Jan-Dec 2021 camel export. There is also significant monthly variation in the quantity of camels exported.

As can be seen in Table 6 and Figure 4 below, cattle are the second largest livestock export after sheep and goats. The table indicates that from Jan-Dec 2022, cattle exports increased 22% compared to Jan-Dec 2021 cattle. January has the highest YoY decrease of cattle exports at 62%, while September had the largest YoY increase at 248%.

2. Imports

Somaliland imports a wide range of products consisting mainly of food items, petroleum products, building materials, machinery and equipment, consumer goods, pharmaceuticals, tobacco and motor vehicles, etc. The bulk of the imports originates from Ethiopia, China, Kenya, U.A.E, Yemen, Saudi Arabia, India, Thailand, and Malaysia. Table 7 below shows the import of containers through Jan-Dec 2021/2022, where there was a 2% increase in containers YoY. India, United Arab Emirates, and China have the greatest number of import containers, which is listed in full in Appendix 3.

The trade of khat and its consumption play a significant role in the Somliland economy. It provides employment opportunities to thousands of people and it is a main source of revenue for the Ministry of Finance, however khat trade constitutes a big drain on the foreign currency resources of the country.

Taxation of imports/exports could be a primary source of potential revenue but it is constrained by lack of regulation and the effective promotion of trade.

Unlike most developing countries which grow their food, Somaliland relies on food imports despite having enough arable land in the country. This is mainly due to the nomadic way of life and the subsistence approach to food production that is prevalent in Somaliland.

Tables of 8 & 9 illustrates the classification of imports into seven categories. Food stuffs and building materials have the highest duty collected as a proportion of total import value, with 39% and 15% respectively. This import classifications are extracted from the full list of imported items in Appendix 1.

*This value (2021) was based on current market value which was collected by the Department of Macroeconomic and statistics. Because at that time the traders didn't display the invoice value of the commodities, the department derived invoice value from the selling/shelf price of the commodities which shows the invoice value was 40% of the selling/shelf price whereas 60% selling/shelf price was the cost, profit and loss issues.

2.1. Trade Balance: Jan–Dec 2022

Figure 5 below shows the trade balance of Somaliland in the fiscal year of 2022. Somaliland registered a trade deficit of **\$1,053,970,217** which is to some extent an underestimation of the true value, as import values are based on recently collected imports invoice values, and these are sometimes an under-valuation due to informal import channels and weak commitment by importers to using the real invoice values.
